Washington, DC 20554

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Where does it end? I'm tired of carrying the burden for all the wealthy people in this country. America is fast becoming a land of the haves & have nots, unfortunately I am one of the nots; and now you are expecting me to have even less so the rich can continue to exploit me and all the others in similar situations! Give US a break for a change, let the rich & the big businesses carry the burden for us...eliminate OUR share of the tax & put it on THEM!!

Keep the USF Fair! I say this should read MAKE the USF Fair!!

Sincerely,

Jean C Wasko
